STEP 50 UP & OVER DOOR SECURITY

STEP 50 ELECTRIC STRIKE FOR UP & OVER DOORS

Reliable Locking and safe storage with the Step 50

Designed for strength & Durability

STEP 50 has been designed to operate in a commercial environment and will withstand heavy use and forces up to 10000Nm.

STEP 50 has a patentend design and will open with side pressure up to 5Kn for easy reliable operation.

STEP 50 is equipped with key override ensuring that the system can be mechanically overridden to provide a higher level of control and also minimising potential disruption.

STEP 50 has dual monitoring of both the solenoid and the latch position for reliable alarm monitoring.

Simple Installation

The STEP 50 can be supplied with various faceplates to suite each installation and can be fitted to both the left and right side of the door. The housing is a strong but compact design for ease of installtion and can be mounted in multiple positions.
